Shaik Sumaiah

FullStackDeveloper|React,Next.js & Python FastAPI
+91 9398217975 | shaiksumaiahaahil@gmail.com | www.linkedin.com/in/shaik-sumaiah-476a99376

Professional Summary

Full Stack Developer with 2 year of experience at Trangla Innovations, specializing in building practical, business-oriented web applications using React.js, Next.js, and Python Fast API. Proven ability to develop complete full-stack solutions that solve real client problems, from responsive frontends to efficient backend APIs. Strong collaborator in Agile teams delivering measurable results for small to medium-sized businesses.

Technical Skills

- **Programming Languages :** Python, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
- **Frontend Development :** React.js, Next.js, Redux, Context API, Tailwind CSS, SCSS
- **Backend Development :** Fast API, RESTful APIs, PostgreSQL, MySQL, SQL Alchemy
- **Tools & Platforms :** Git, GitHub, Docker, Postman, Figma, Vercel, Netlify, AWS
- **Testing & Quality :** Jest, React Testing Library, Pitesti, Fast API Test Client
- **Development Practices :** Agile Methodology, CI/CD, Code Reviews, Responsive Design

Professional Experience

Full Stack Developer | Trangla Innovations Pvt. Ltd | Feb 2024 – Present

- Developed 3+ full-stack client applications using React.js/Next.js frontends and Python Fast API backends
- Built RESTful APIs with authentication, data validation, and proper error handling for client projects
- Created responsive admin dashboards and customer-facing interfaces using Tailwind CSS
- Optimized database design and queries for PostgreSQL/MySQL in production applications
- Collaborated with project managers to understand client requirements and deliver tailored solutions
- Implemented automated testing achieving 80%+ test coverage for both backend and frontend functionality
- Deployed and maintained applications on cloud platforms with proper CI/CD pipelines

Projects

Client Portal & Service Management System

- Developed a comprehensive client portal for a local HVAC service company to manage customers, appointments, and invoices
- Built Fast API backend with customer management, service tracking, and invoice generation endpoints
- Created React.js admin dashboard with data tables, service history, and reporting features
- Implemented JWT authentication for secure multi-user access (admin, technicians, customers)
- Designed responsive customer interface for service requests and status tracking
- Reduced manual paperwork by 60% and improved response time to customer inquiries

Tech Stack: **React.js, Python, Fast API, PostgreSQL, Tailwind CSS, JWT, Docker**

Inventory & Order Management System

- Created a complete inventory and order management system for a small retail business
- Developed Fast API backend with product catalog, inventory tracking, and order processing APIs
- Built Next.js frontend with real-time inventory updates and order status tracking
- Implemented barcode scanning integration for efficient inventory management
- Added automated low-stock alerts and sales reporting dashboard
- Reduced inventory discrepancies by 45% and improved order fulfillment speed by 30%

Tech Stack: **Next.js, TypeScript, Python, Fast API, MySQL, Chart.js, Tailwind CSS**

Property Management Dashboard

- Developed a property management dashboard for a small real estate agency
- Built Fast API backend with property listing, tenant management, and maintenance tracking
- Created responsive React.js interface with property search, tenant portals, and owner dashboards
- Implemented rent tracking, lease management, and automated notification system
- Added document management for leases, agreements, and maintenance records
- Streamlined property management tasks, reducing administrative time by 50%

Tech Stack: **React.js, Python, Fast API, PostgreSQL, Tailwind CSS, File Uploads**

Education

Bachelor of Computer Applications | [Sri Nagarjuna degree college] | Ongole, Andhra Pradesh, India | 2022 - 2025
